

StableTable® Nouveau

When heritage meets innovation

StableTable® Nouveau is a design table steeped in tradition.

With its soft curves, understated Scandinavian appeal and updated contemporary lines, the new table stands out as a design classic.

The concept has been developed to meet the aesthetic needs of modern cafés, bistros, bars and restaurants. True to our Swedish design heritage, form goes hand in hand with functionality. The softly curved legs stand firmly in place thanks to the unique, patented StableTable® technology inside.

StableTable® Nouveau automatically adjusts to both bumps and grooves and manages height difference up to 25 mm.

Just lift and place the table wherever you want, and it will immediately set all four feet on the ground and stop all the wobble even if guests start moving the table around.

StableTable®
"No more wobbly tables!"

StableTable® Nouveau at Plaza España in Seville, Spain
When Swedish innovation meets Spanish architecture and tradition, something magical happens and timeless furniture - solving real problems - is created.

Design concept and benefits

The StableTable Nouveau meets the aesthetic needs of modern Cafés, and Bistro style restaurants. With its stylish and light features it helps create an exclusive refined design feel in any type of venue.

All StableTable Nouveau bases can be delivered with FlexCross™ or FlipTop™.
