THE COMPANY / L'AZIENDA

Nexo Luce is a high end manufacturer of lighting fixtures. Through our various brands, we offer a complete range of professional lighting fixtures for indoor, outdoor and decorative use.

The company is the inheritance of decades of know how in the industry and business at large. When its founders joined forces, their sense of service and their eagerness to meet clients' expectations as a priority defined the company's groundwork.

Driven by passion for art, technology, and perfectionism, the company rose by responding to market needs with flexible and custom-made solutions.

We pride ourselves with the complexity and diversity of projects we delivered, covering external, internal and decorative lighting; such as hotels, restaurants, palaces, iconic, historical and high rise buildings.

Our work is derived by the will to produce unique versatile designs. Our care for quality and R&D positions our products amongst the best in the industry.

We opted for a smart factory with a goal to value knowledge and to keep efficiency amongst our business priorities.

Our procedures are paperless and our production relies on the use of renewable energy. Our team is global and acts like one thanks to technology that facilitates communication and collaboration.

Nexo Luce è un'azienda produttrice di apparecchi di illuminazione di alta qualità. Attraverso i suoi marchi, offre una vasta gamma di prodotti di illuminazione per interni ed esterni.

L'azienda nasce dalla fusione di esperienze decennali nel settore dell'illuminazione e di competenze nel business. Unendo le loro conoscenze i fondatori hanno consolidato l'azienda, mettendone alla base sin dall'inizio la loro capacità di soddisfare il cliente e di dare un servizio sempre oltre le aspettative.

Spinta dalla passione per il design, la tecnologia e l'attenzione ai dettagli, l'azienda è cresciuta rispondendo alle esigenze del mercato con soluzioni flessibili e personalizzate.

La complessità e la varietà dei progetti che abbiamo realizzato ci rende orgogliosi.

Illuminazione tecnica e decorativa, per interni ed esterni, hotel, ristoranti, edifici storici e grattacieli sono tra le cose che abbiamo avuto il piacere di illuminare.

Il nostro lavoro è frutto della volontà di creare prodotti unici e versatili. La nostra cura nei confronti della qualità e della ricerca e sviluppo rende i nostri prodotti tra i migliori del settore.

Utilizzando le nostre competenze abbiamo scelto un modello industriale snello e dinamico con l'obiettivo principale di mantenere alta l'efficienza.

La nostra organizzazione è volta sempre più ad una operatività "paperless" e si affida ad energie rinnovabili per la produzione. Il nostro gruppo è internazionale e si comporta come tale, grazie anche alle nuove tecnologie che facilitano la comunicazione e la collaborazione.

Amongst the company's brands, Oxen is born from the passion for craftsmanship and matter.

Through high expertise in lighting and a made to measure quality, Oxen is an expression of elegance and minimalism made of clean simple cuts, a melodic integration between design and art.

Driven by the belief that a creative process is a continuous balance between intellect and emotions, aesthetics and precision, we pursued a stylistic research to interpret a line inspired by the world of "design", eclecticism and the craftsmen of the Bauhaus school, polyhedral faceted lines that suit luxurious and stylish volumes.

The manufacturing processes are those used in small workshops by Italian master craftsmen, where attention to detail and the manual execution of metal finishes or blown glasswork make every single lamp "unique".

The tones and textural structures proposed marry the contrast between innovation and tradition, whilst knowledge of the matter and its processes allow us to make the most of its expressive possibilities.

Oxen explores the use of metal and glass, noble materials and ductile, leading to astonishing results and visual impacts.

Tra i marchi dell'azienda, Oxen è nato dalla passione per l'artigianalità e i materiali.

Attraverso l'alta competenza nell'illuminazione e la qualità nella produzione su misura, Oxen esprime eleganza e minimalismo attraverso linee rigorose e pulite: un'armoniosa integrazione tra arte e design.

Siamo spinti dalla convinzione che un processo creativo sia un continuo equilibrio tra intelletto ed emozioni, tra estetica e rigore. Perseguiamo una ricerca stilistica per interpretare una linea ispirata al mondo del design, dall'eclettismo ai laboratori artigiani del Bauhaus, sfaccettature di linee che si adattano a volumi lussuosi ed eleganti.

I processi produttivi sono ancora quelli utilizzati nelle botteghe dei maestri artigiani italiani, dove l'attenzione per i dettagli e l'esecuzione manuale di finiture in metallo o vetro soffiato, rendono ogni singola lampada "unica".

I toni e le strutture proposte, si sposano con il contrasto tra innovazione e tradizione, mentre la conoscenza della materia ed i suoi processi di trasformazione ci permettono di sfruttarne al massimo le sue potenzialità espressive.

Oxen esplora l'uso del vetro e del metallo, materiali nobili e duttili, ottenendo risultati straordinari e di grande impatto visivo.
