

ROSS GARDAM

Ceto captures the variation and rippling of the surface of the ocean. Each piece reflects a unique pattern, emitting a delicate luminosity, highlighting the presence of the sea.

The Ceto collection defines a new universal language for decorative lighting. The various configurations of the Ceto light all share a delicate balance between the organic glass elements and the machined aluminium components. Each light source appears to be simply pressed onto the supporting tube with no visible connections. This ingenious connection method takes on an organic form and gives the product an overarching lightness.

This sculptural luminaire spans chandeliers, floor lamps, wall lighting, and pendant varieties, cumulating in the most extensive collection the Melbourne based studio has produced to date.

MATERIALS

GLASS

Each piece of glass has been hand-blown by local artisans. As a result
of this process each shade has its own character and subtle variation.

BODY

The aluminium body has been machined by quality driven local manufacturers
and then hand finished by our in-house workshop technicians.

CABLE

All exposed electrical cable is double insulated and covered by a durable black
or white cloth cover.

FLOOR LIGHT BASE

The weighted base is finished with a black powder coat and has a durable felt
covered underside to prevent any damage to itself or the floor it rests on.
