

Ginger & Jagger

Ginger breathes deeply. She's just climbed a mountain.
She's never felt air this pure. The view of the forest is breathtaking.
The river seems even more commanding from above.
The world now seems so small. Ginger smiles.
She's found her freedom again.

Jagger reads Ginger's letter. She doesn't send pictures of the places
she writes about. She doesn't have to.
Her words are so vivid, so entrancing. Jagger doesn't write back.
He wouldn't know where to send them to. Instead, he designs.
His creations are unraveled by her travels, by his memory of her.
He hopes she smiles when she sees them. They are dedicated to her.
These are his love letters.

Ginger & Jagger applies functionality to Nature's most intricate forms.
The shapes created encompass both the soft and rugged textures
often found simultaneously in Nature.

Craftsmanship

Brass casting, wood and marble marquetry, hand hammered metals and hand sculpted marble are central to the brand's aesthetic canon.

The tree branches and leaves used in the casting are selected by our designers and craftsmen from magnolias, fig trees, rosebushes and vines from Porto. The casting process imprints the pieces with a perennial feel, as the branches are eternalized. However, the casted brass is hand weld giving a unique sculptural element to each piece.

The marquetry, both in wood and marble, as well as the hand hammered metals and hand sculpted marbles convey the combination of artisanal techniques with a design process embedded with the brand's narrative element.

The artisanal techniques availed to noble materials are part of the singularity of each Ginger & Jagger creation.
