

TOULEMONDE BOCHART
créateur de tapis

COMPANY PROFILE

TOULEMONDE BOCHART is a company family founded in 1939 in the heart of the textile region of northern France. We turned to contemporary rugs in the late 1960s and were pioneer in the development of partnerships with renowned designers and stylists to put «Creators at your feet».

At this time, collaborations were initiated with dedicated workshops in India and Nepal insuring compliance with quality rules and the following of creative lines.

This led to the appearance of rugs which have become iconic, responding to creative demands within an area which hitherto had not been sensitive to design.

TOULEMONDE BOCHART has been established for 30 years near Paris, with our headquarters and a warehouse covering more than 3000 m².

We present our collections in our own showrooms located in prestigious neighbourhoods of the capital.

TOULEMONDE BOCHART generates more than 35% of its revenue from international business in over 60 countries.

Its collections can be found in the finest showrooms of the major European, Asian and American capitals.

Even if France remains the first country, the brand expands over new territories such as Australia, South America, the Middle East or Russia.

Our export department works with agents and distributors over more than 15 countries.

Besides retail, contract stands for an important part of our activity. Indeed, we have increased the number of hotels and residential projects in the world.

TOULEMONDE BOCHART

An expertise dedicated to
contemporary rug making

TOULEMONDE BOCHART masters all the skills associated with the artisanal production of rugs, whether woven, tufted or hand-knotted.

Our creations are expressed using a diverse range of materials, including wool, silk, linen and hemp.

Endless combinations are possible, allowing for the most varied demands to be met. Our internal quality control procedure ensures strict compliance with the requirements of our customers.

A workshop
dedicated to
customized rug in
a short timeframe

Over 500 items from our collection and catalogue are available from stock.

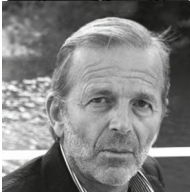

Famous names have put their signatures to our collections, with our internal studio committed to developing purer lines to meet the expectations of a more minimalist clientele sensitive to textures and materials.

The entire catalogue can be delivered in a very short timeframe from a platform located at our headquarters near Paris.

TOULEMONDE BOCHART creates contemporary rugs that can be made to measure, playing upon size, pattern and colour to make unique pieces fulfilling the expectations of our specifiers, whether architects, decorators or designers.

The flexibility of our workshops, in Paris and also in India and Nepal, allows us to fully adapt to their demands and meet requirements for managing specific development projects (hotels, private venues, showrooms, yachting, etc.).
