

GAZZDA

GAZZDA

Coming home

Close your eyes and think about home... Chances are, the picture in your head is precious, and the feelings it evokes are some you cherish most. Warmth, comfort, safety, love... Home, is so much more than just a few walls and a roof. It is the place we go to relax, to rest and to recharge. It is the sanctuary where we leave the troubles of the world behind, and where we enjoy irreplaceable moments with family and friends.

The spaces we call home give us such an extraordinary feeling, so they deserve extraordinary furniture. Products that are exquisitely designed and carefully crafted, with positive energy and utmost care. This belief is what gives us purpose. It is what keeps us searching for ways to push boundaries, day in, day out. Not only the boundaries of furniture conventions, but also of our imaginations.

In this catalogue, you'll find the results of our endeavors. We hope you'll enjoy them. We hope they take you back... To that pretty picture you imagined just a moment ago. Back home.

Three features. One feeling.

At Gazzda, people talk every day about 'creating an awesome sense of home'. But what does awesome look and feel like? To us, it means that when you walk into a room, you start to feel at peace. You don't know exactly how it happened... you just started feeling it... right at the moment you stepped inside. To achieve this experience, we create products that stay true to three core features. **Light. Smooth. Natural.**

Light

Lightness preserves transparency, which enables light, energy and air to flow freely around you. So, despite our use of heavy materials (like solid oak), we make sure our products always look and feel light... through minimalistic designs and the efficient use of those materials.

Smooth

Smoothness soothes. And Gazzda furniture is as relaxing to touch, as it is to see. Because we take the time to finely shape, polish and perfect every curve and surface. That's why, when seeing our products, most people can't help but reach out and caress them. And there is nothing wrong with that, it's just the thing we had in mind.

Natural

We use materials of Mother Nature's creation, such as oak, wool and cotton, to bring a touch of nature into your living spaces. That is because like no other, they create an instinctive sense of home. They contribute to a sense of wellbeing. Which we think, is exactly what us modern sapiens need today.

Ava

For the divergent.

This bench and armchair are for the unique among us. For the Italian who dares to drink her cappuccino after 11am. For the granddad who drives electric. And for anyone who loves novelty.

It takes only one glance to learn why Ava is designed for the divergent. The solid oak bench and armchair both rock a unique A-shaped leg construction, connected to a slender, bent backrest. The chair for instance, doesn't consist of the ordinary 4-point connection, but a rare, (almost) hovering 2-point connection. This makes it radiate a distinct sort of grace, whilst providing great strength and impeccable balance.

Ava bench

Both seats can be used in any dining area, both at home and in professional spaces – we made sure of that. Also, the bench is equally fit to support you as you put on your shoes in the hallway, or to serve as a stylish loveseat anywhere that needs a little love.

Ava's ergonomic, human-contoured upholstered seats are thinned out, to give them an airy look and feel. They are available in oak, leather, or a combination of wool and flax, in carefully selected, contemporary colours that each complement Ava's solid oak frame.

Ava chair

Nora

Not your typical archetype.

We were looking to create a chair that would be an archetype, though extraordinary. Light, but impactful. Modest, yet fresh. She had to be... a special kind of normal.

To achieve these playful contrasts, we narrowed Nora's legs and backrest to a minimum at carefully selected spots. Giving her a contemporary, feather-light look from one angle, while showcasing a classical and sturdy look from another.

Nora lounge chair

In early 2018, the dining chair arose. We named her after her creator's one-year-old daughter. After a great first year for both Noras, we created a lounge and bar version of the chair. This way, Nora's young design gets to rock various spaces and numerous occasions.

Each version is crafted to last a lifetime, both at home and in professional spaces. And every detail is polished for hours on end, giving it a smooth feel.

Nora's floating seats come in classy oak or a stylish upholstery. Choose between an all-natural fabric or top grain leather, in a selection of fresh colours: Pick your favourite or mix it up if the mood strikes you. We promise, you'll feel ten years younger.

Our roots

To get a complete picture of how each and every Gazzda product is made, it's best to first zoom out to a full picture of Bosnia and Herzegovina. In the north, the beautiful Una River carves its path through lush forests and varied landscapes. Down south, the breath-taking Kravice Waterfalls send endless streams of crystal water into a circular oasis, surrounded by trees that reach into the sky. Move to the centre, and you'll find impressive green mountains that watch over the valleys below, including the one in which our beloved Sarajevo lies. No surprise, then, that nature is our most powerful inspiration.

Zoom in a little closer, and you'll see why Bosnia's diverse culture – with influences from both East and West – gives us an appreciation for individuality. Whether it's food or fine art, music or film, Bosnia gives it its own distinctive flavour. Most of all, the country's traditions of craftsmanship – woodworking, metalworking and furniture making.

Of course, there are many places in the world to make great furniture. But Bosnia and Herzegovina is the only place for Gazzda. For us, she is number one. For turning nature's gifts into people's treasures. For craftsmen that translate our vision into reality. And the number one place to bring our feeling of home, into the living spaces of many others.

Ava chair

Muna

A revolutionary classic.

Muna is our futuristic interpretation of 'the classical armchair'. What makes her special and at the same time different from her classic predecessors, is the unique way we've connected her backrests with her armrests. They are two pieces of a puzzle, clicking seamlessly together – providing great strength and a contemporary look at the same time.

We carefully bend Muna's backrest through advanced woodworking techniques, making sure we don't waste more oak than we must. Every bit of Muna is polished to perfection, giving her a smooth, fluid feel. And her minimalistic, solid oak frame makes her feather-light, so people can place her anywhere they want to relax.

All details and materials were carefully designed and selected to complement our Muna's backrest and its one-off connection. Plus, they all stay true to Gazzda's three core features: light, smooth and natural.

After dozens of attempts and even more prototypes, the dining version arose in 2018. And this year, 2019, the lounge chair premieres. Because if you ask us, the future's all about kicking back.

Muna chair

Mother N.

Janice Joplin, Stevie Nicks, Joan Jett. They all rock. But Mother N. rocks more than all three of them combined. She puts on a mind-blowing show, 365 days a year. There seems to be no end to the lyrical beauty of her creations, the magical mystery of her secrets, and the puzzling precision of her mechanisms.

That is why we should take great care of her, and make sure that all wood used for industrial products comes from FSC™-certified forestry only. You can be sure that each and every Gazzda product carries the esteemed FSC™ label. To help ensure that Mother N.'s impressive and ever-evolving repertoire can carry on, until the end of time.

Fawn collection

You might think that 'solid oak' and 'light as air' are contradictions, but they don't need to be. And our Fawn collection proves that. While crafted from solid oak, each piece appears as light and lively as a young deer, prancing through the forest. And her smooth, subtle contours, invite a gentle touch every time she passes by.

Get an impression of the collection here, or check out the full product overview in the back of this catalogue. There is enough of Fawn to go around, for any space you had in mind.

Fawn lowboard

Treat. Yo. Self.

Looking for a finger-licking piece to go with your beloved TV? Prefer a minimalist style, since you only watch Netflix and listen to Spotify anyway? Look no further.

This all-oak piece will adorn any room with her smooth surfaces and sleek lines. Still feel sentimental about your CD and DVD collections? No prob. Just store your favourites in this lowboard's push-to-open drawers, and put the rest in one of our bigger storage units.

Dedo

An ode to our favourite storytellers.

This chair is an ode to all grandfathers that live and have lived – the rulers in history of lazy chairs. That's why we named it 'Dedo', an affectionate Bosnian word for grandpa. And he is precisely who you'll think about when you sit in this comfortable, timeless and responsive chair. We suspect your storytelling will even improve.

The unique back design, made from elastic cotton ropes, responds to your shape for ultimate comfort. Its leather or fabric pillows can be easily adjusted in height, so that the chair is comfortable to people of any size. The lightweight look and feel will compliment any space, and once it's there, it will be hard to imagine the room without it. Sit back and relax. Dedo will support you even through your longest tales.

Fina storage units

From the latest gadgets to the awesome underwear you only wear on dates, personal trophies come in all shapes and sizes. Whether your bedroom, hallway or living room needs a little space to store your treasures, you'll find Fina's storage units open to all the possibilities. Hide wires and cords inside the TV unit, to keep the space clean and clutter-free. And store your smartphones, tablets, and other prized possessions, in the luxuriously carved out compartment of the sideboard.

We didn't limit Fina's story to great function, because we also wanted her owner to fall for her good looks. The thin lines of each piece realize just that. They give an elegant, minimalistic look, which is accentuated by the repeating contrast between light oak and black elements – made from quality linoleum and powdercoated steel. Repeated, in even the smallest details.

Hello Hook

Farewell, impractical corners.

Every inch of a home is an opportunity to create awesomeness. But empty corners can be a little tricky. Or, rather, they could be. We've devised three series of Hook hangers that take care of that. Use them all together to create a smart combination for hanging coats, scarves, terrible moods – you name it.

The first of its kind, Hook Hanger, is available in three versions. One that nestles in inner corners, another that wraps around outer corners, and one that rests on straight walls or doors.

Leina bar chair

Tall steel legs, to support the longest nights.

Prefer a cold beer or a healthy juice? Whatever floats your boat, our Leina bar chairs will hold you up as you toss 'em back.

We made her solid-oak seat hover a few centimeters above the powder-coated steel legs, to add a touch of Gazzda airiness. Choose between two chair heights and select a fresh colour of powder coated steel. Add comfy natural leather seating pads for drinks that extend beyond happy hour. Salut!

Hook coat stand p. 112

Hook shelves p. 111

Hook shelves & coat stand

Our second Hook series, exists out of handy shelves. Use them to place your favourite books and plants, while also hanging this morning's freshly ironed shirt. For that early meeting you have tomorrow, remember? Or if you wish, use the classy coat stand for the job. We assure you, it will revive even the saddest of corners – whether in your bedroom, hallway or office. If home is where you hang your hat, Hook is how you hang it.

Ena collection

Our Salih once said: "For me, designing is like a game – just like a child of three plays with toys, I consider my pencil a joy! I design for pleasure - it's never a chore".

Salih practices what he preaches; so one day he took his pencil and blended some of his sweet childhood memories together with flashes of futurism. He started to draw lines that reminded him of days long past, days from the 60's, filled with love, soul and passion. His shapes were refined with modern, light touches... distinct elements that form the character of what would be the first Gazzda collection. He named it after his most precious creation to date: his daughter Ena.

If you're looking to inject a little lightness into a space, Ena is the right pick. Even the larger storage units brighten up a room, as their white MDF doors and drawers will optically 'sink' into white walls. And, there is enough of Ena to fill a house. Take your pick from over 40 unique, but matchy designs. For any need or place you can think of.

Get an impression of the extensive Ena range on the following pages, or check the product overview in the back of this catalogue to explore all options.

Salih Teskeredžić - *product designer*

When Salih walks into a room, his energy is infectious. He puts passion and emotion into every design and aims to create products that people truly love. The design studio is Salih's playground, and his pencil is his favourite toy. He spent 18 years in Austria and speaks perfect German. So when Salih gets a design just right, it's common to hear him loudly expressing his joy in German. We don't always understand what he's saying, but we're clear on how he feels.

Salih is the reason we focus on natural materials in all our Gazzda products. He shares his passion for wood with all of us, and has helped us appreciate that magical moment when we touch a finely crafted, smooth piece of polished wood. But Salih doesn't just share his passion with us. He's been teaching industrial design to promising youngsters since 2004. Among his students, Salih's near-obsession with wood is so well known, they affectionately call him 'Geppetto'. Someday, one of Salih's creations will likely turn into a real boy.

When he's not creating beautiful designs in our prototype studio, you're most likely to find Salih spending time with his family, or drinking his beloved Bosnian coffee in a café in downtown Sarajevo. Just like Salih and his creations, the coffee is all-natural.

Mustafa Čohadžić - *product designer*

Mustafa has furniture design in his DNA: he comes from a family of artisans, and his dad handcrafted furniture. As a teenager, he was already designing and constructing his own pieces in the family workshop. Mustafa has evolved into a devoted product designer and designed numerous Gazzda pieces since 2016. For Mustafa, the magic words in furniture design are functionality, aesthetic, and simplicity.

Mustafa is also Gazzda's resident rock star. He plays the drums and guitar, and occasionally bursts into song. Around Gazzda, Mustafa is always ready to share a laugh. We know him as the man of 1,000 talents – from product design to music to photography to art direction. Want his opinion? He'll give it to you, direct and unfiltered. Even his communication is about simplicity.

When he's not cloning his design DNA in the Gazzda workshop or serenading friends and colleagues, you'll find Mustafa relaxing in his enchanted forest, enjoying the quiet life in the small town of Fojnica. After all, rock stars need a break from all the paparazzi.
