terraforma

Open your mind
and feel the beauty.

“Color provokes a psychic vibration. Color hides a power still unknown but real, which acts on every part of the human body.”

“Il colore provoca una vibrazione psichica. Il colore nasconde un potere ancora sconosciuto ma reale, che agisce su ogni parte del corpo umano.”

Wassily Kandinsky
1866.1944

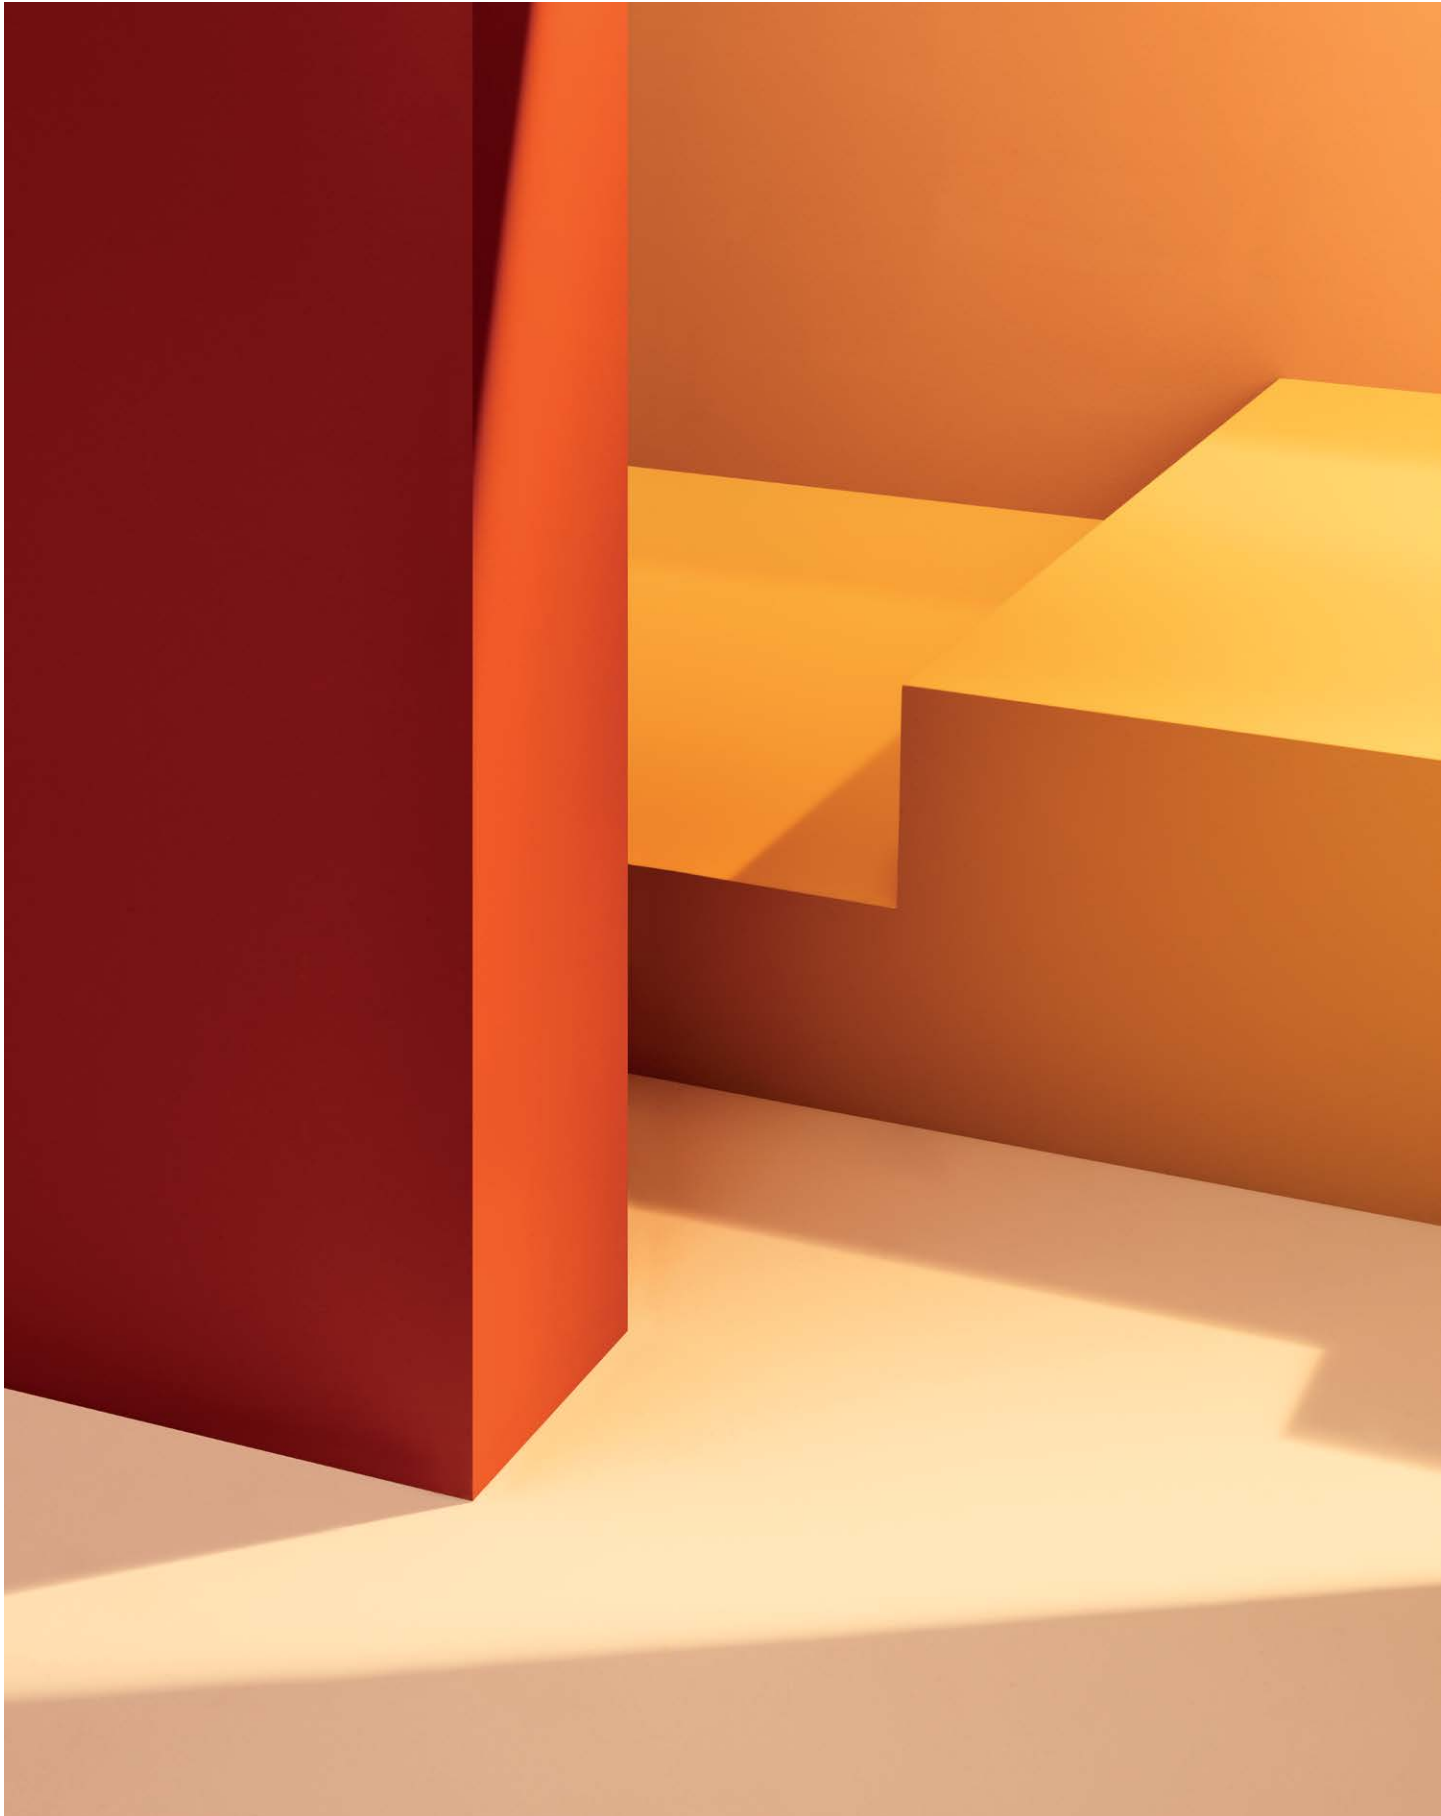

Abstract

Terraforma is matter and light, photography and design: elements that transport the observer as far as they are able to go. Every page turned is another step in the journey. The surreal atmosphere is at times so dreamlike as to become indescribable. Sometimes unexpectedly, colour dominates the space with shadows and contrasts that claim the last word on form. This is the beginning of a journey, a sensory experience that reveals a concrete design made from aluminium and steel, rope and teak. Design meets Italian manufacturing quality with the noble ambition of lasting over time, here where 'form follows function' and finds its place in an uncontaminated, extemporaneous space.

Terraforma è materia e luce, design e fotografia; elementi in grado di portare l'osservatore tanto lontano quanto può arrivare. Ogni pagina è un passo, che ha il suono della carta sfogliata. L'atmosfera è surreale, a tratti così onirica da apparire ineffabile. Il colore incalza, a volte improvviso, e domina lo spazio con ombre e contrasti che sembrano avere l'ultima parola sulla forma. Siamo all'inizio di un viaggio, un'esperienza sensoriale che rivela un progetto concreto, fatto di alluminio e acciaio, corda e teak. È il design che incontra l'eccellenza produttiva italiana, con la nobile ambizione di durare nel tempo, dove 'la forma segue la funzione' e trova il suo palcoscenico in luogo incontaminato, estemporaneo.

Makemake

/ˈma.keˈma.ke/

design studioPANG

The Makemake collection arose out of the subtle dialogue between the sinuousness of the delicate metal blade that marks out the design geometry and the alternation of the finishes that complete every single type of product. Made in aluminium and steel, or combined with slats of tasteful teak, this is an extensive line of comfortable outdoor furnishings that provide evocative ideas and effective solutions for making the most of the outdoor environment through a unique, engaging method.

La collezione Makemake nasce dal lieve dialogo tra la sinuosità di una delicata lama metallica che ne disegna la geometria e l'alternanza delle finiture che completano ogni singola tipologia di prodotto offerta. Telaio in alluminio e acciaio, in abbinamento a doghe di teak selezionato, ecco una vasta linea di confortevoli arredi da esterno che offre spunti suggestivi e soluzioni efficaci per vivere l'ambiente outdoor con rinnovata energia e coinvolgimento.

The Makemake modular sofa combines an excellent comfort with a rigorous and linear design, which is the main feature of the entire collection. Thanks to an advanced modular system, with a few strategic elements it is possible to give life to a wide range of possible explorable configurations. The armrest makes the product highly customizable indeed.

Il divano componibile Makemake abbina l'eccellente comfort di cui dispone a un design rigoroso e lineare, tratto peculiare dell'intera collezione. Grazie a una logica modulare avanzata, con pochi strategici elementi si può dare vita a una molteplicità di possibili configurazioni. Il bracciolo consente inoltre un grado di customizzazione esponenziale del prodotto.

The Makemake sunbed features a simple, sinuous geometrical shape that is able to meet the needs and appeal to the tastes of a wide array of different customers. The lightweight aluminium frame makes this a practical, easy-to-handle product, while the cushioning endows it with comfort. It is also available with a cool couple of wheels.

Il lettino Makemake presenta una geometria semplice e sinuosa, in grado di soddisfare le esigenze e i gusti di una vasta clientela. Il telaio in alluminio rende questo prodotto pratico e maneggevole, mentre il materassino conferisce un alto grado di comfort. Disponibile anche la versione con ruote.

Eleven

/i'lev.ən/

design studioPANG

A versatile, dynamic, constantly evolving family of products, with a generously proportioned metal tube being a feature of the entire collection. The tube composes every frame, onto which are applied a multitude of finishes, materials and colours; each furnishing type in the range can be imbued with an appropriate character, able to personalize and confer the style suitable for every type of furniture.

Una famiglia di prodotti outdoor versatile, dinamica e in continua mutazione, dove un tubo metallico di generose dimensioni si annuncia peculiarità dell'intera collezione. Lo sviluppo del tubo compone ogni telaio, su cui viene proposta l'applicazione di un diversificato range di finiture, materiali e colori, in grado di personalizzare e conferire il carattere idoneo a ogni tipologia di arredo.

According to the Eleven design approach, the dining space is tranquil, understated and relaxing. The chair and table talk to each other in refined tones, arranging themselves in an orderly fashion on the terrace, ready to play host to the next users. The tube frames can be finished in marine rope, freestanding outdoor fabric and different combinations of padding.

L'ambientazione dining proposta dalla visione design di Eleven è pacata, sobria e rilassante. Sedia e tavolo dialogano tra loro disponendosi con ordine nella terrazza, pronti ad accogliere i prossimi fruitori. I telai metallici possono essere rifiniti in corda nautica intrecciata, tessuto outdoor autoportante e varie possibili combinazioni di imbottiti.

General Technical Details

All the structures are made with industrial machinery, laser cutting, sheet metal punching and insertion of stainless steel. The fixing of the sheets or of the teak strips takes place through the mechanical insertion of bushes so that from the outside you can see the hexagonal heads of the bushes installed with a harmonic design. The legs of the seats and tables are removable. All the materials are in aluminum and stainless steel, except for the legs of the tables and of the bench which are made of treated steel. The wood is a raw teak and can be treated with special oils for maintenance.

Modular Sofa Specifications

The sofa has a structure in aluminum, with top in teak slats and aluminum legs screwed with steel plates. The metal structure is powder-coated for exterior, embossed fine. Padding in double density polyurethane, with addition of viscoelastic rubber (memory foam) and top in synthetic fiber. Outdoor Sunbrella fabrics, weather-resistant, washable without needing to be removed as per instructions from the supplier. Optional cushions on request. Rainproof cover is available. It is advisable to shelter the product in a sheltered place during rainy or winter periods. The product can be endlessly assembled using the prefigured modules.

Padded Fabric Mats

For all the versions, Déco offers 40 mm thick polyurethane foam mats covered with outdoor fabric. The mats are characterized by a perimeter band, a zipper to remove them and two slots to keep them close to the structure with fabric straps. Maintenance: any stains can be eliminated following the manufacturer’s instructions (sunbrella.com) without the necessity to remove the covers from the structure, being a fabric extremely resistant to water and stains.

Dettagli Tecnici Generali

Tutte le strutture sono realizzate con macchinari industriali, taglio laser, punzonature delle lamiere ed inserimento di bussole in acciaio inox. Il fissaggio delle lamiere o delle liste di teak avviene tramite l’inserimento meccanico di bussole per cui all’esterno si intravedono le teste esagonali delle bussole posizionate con disegno armonico. Le gambe delle sedute e dei tavoli sono smontabili. I materiali sono tutti in alluminio ed acciaio inox, tranne le gambe dei tavoli e della panca che sono in acciaio trattato. Il legno è teak grezzo e può essere trattato con oli appositi per la manutenzione.

Specifiche Divano Componibile

Il divano ha una struttura interamente in alluminio, con piano in doghe di teak e gambe in alluminio avvitare con piastrine in acciaio. La struttura metallica è verniciata a polveri per esterno, goffrata fine. Imbottitura in poliuretano a doppia densità, con aggiunta di gomma in viscoelastico (memory foam) e copertura superiore in fibra sintetica. Fodere in tessuto Sunbrella, resistenti agli agenti atmosferici, lavabili senza necessità di sfoderarli come da istruzioni del fornitore. Cuscini accessori a richiesta. Disponibile fodera protettiva antipioggia. Si consiglia il ricovero del prodotto in un luogo riparato durante i periodi piovosi o invernali. Il prodotto è componibile all’infinito utilizzando i moduli prefigurati.

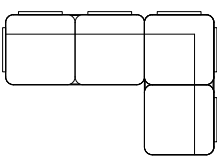

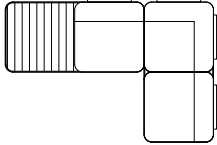

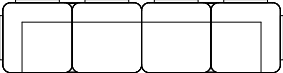

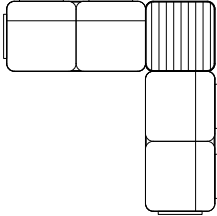

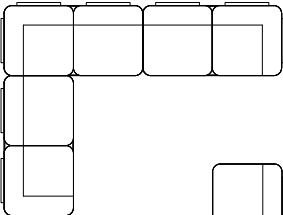

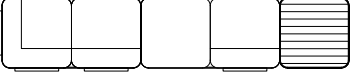

Materassini in Tessuto Imbottito

Per tutte le versioni sono previsti dei materassini in poliuretano espanso di 40 mm rivestiti con tessuto per esterni. I materassini hanno una fascia perimetrale, una cerniera per sfoderarli e due asole per tenerli accostati alla struttura con delle fascette in tessuto. Manutenzione: eventuali macchie si possono eliminare seguendo le istruzioni del costruttore (sunbrella.com)senza togliere le fodere, in quanto tessuto resistente all’acqua ed alle macchie.

Hand-Wrapped Rope Version

Nautical rope in 16-strand woven polyester, 6 mm thick, resistant to external agents such as sun, rain and wide temperature changes. Colors available: light gray, anthracite, blue navy. Seat and backrest cover. Only on the lounge chair it is possible to wrap the rope on the armrests.

Structural Fabric Version

The seat is made of a waterproof structural fabric for outdoor, double, with thin padding, straps for outdoor use with stainless steel hooks. The back features a water resistant outdoor structural cover, double stitched. Canvas colors: Dickson Marbre Piqué - Dickson Basalte Chiné. Maintenance: any stains can be eliminated following the manufacturer’s instructions without the necessity to remove the covers from the structure being a fabric resistant to both water and stains.

Upholstered Version

Outdoor water-resistant fabric double stitched with padding. Reinforcement straps with stainless steel hooks both in the seat and in the backrest. Maintenance: as previous.

Sofa and Armchair Specifications

Structure in 30mm tubular steel, sandblasted with galvanizing base and embossed fine powder paint for exteriors. On the seat surface are applied external straps with stainless steel hooks. Shaped double density padding. Outdoor Sunbrella fabrics, weather-resistant, washable without needing to be removed as per instructions from the supplier. Standard armrest cushion. Rainproof cover is available. It is advisable to shelter the product in a sheltered place during rainy or winter periods.

Versione in Corda Avvolta a Mano

Corda nautica in poliestere intrecciata a 16 fili spessore 6mm, resistente agli agenti esterni, sole, pioggia e sbalzi termici. Colori: grigio chiaro, antracite, blu navy. Rivestimento del sedile e dello schienale. Solo sulla poltrona è possibile avere i braccioli rivestiti in corda.

Versione in Tessuto Strutturale

Sedile con tessuto strutturale da esterno resistente all’acqua, doppio, con sottile imbottitura, cinghie per esterno con ganci in acciaio inox. Schienale con telo strutturale da esterno resistente all’acqua, cucito doppio. Colori telo: Dickson Marbre Piqué - Dickson Basalte Chiné. Manutenzione: eventuali macchie si possono eliminare seguendo le istruzioni del costruttore senza togliere le fodere dalla struttura essendo un tessuto resistente all’acqua ed alle macchie.

Versione in Tessuto Imbottito

Tessuto da esterni resistente all’acqua, cucito doppio con imbottitura. Cinghie di rinforzo con ganci in acciaio inox sia nella seduta che nello schienale. Manutenzione: come sopra.

Specifiche Divano e Poltrona

Struttura in tubolare di acciaio 30mm, sabbiato con fondo zincante e vernice a polvere per esterni goffrata fine. Sul piano della seduta sono applicate cinghie da esterno con ganci in inox. Imbottitura a doppia densità sagomata. Fodere in tessuto outdoor Sunbrella, resistenti agli agenti atmosferici, lavabili senza necessità di sfoderarli come da istruzioni del fornitore. Cuscini bracciolo di serie. Disponibile fodera protettiva antipioggia. Si consiglia il ricovero del prodotto in un luogo riparato durante i periodi piovosi o invernali.

Specifiche Tessuti

The fabrics used for the outdoor furnishings in the Terraforma collections are made of solution-dyed 100% acrylic Sunbrella or Dickson, specifically designed for exteriors, which offers a high level of resistance to atmospheric agents and wear-and-tear. Water-repellent, stain- and mould-resistant. This material is also treated to retain the original colour, protecting it against exposure to sunlight and the action of water.

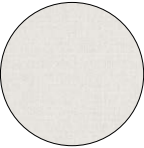

I rivestimenti degli arredi outdoor per le collezioni di Terraforma sono realizzati con tessuti specifici per esterni in acrilico 100% tinto in massa Sunbrella o Dickson, che garantiscono un’alta resistenza agli agenti atmosferici e all’usura. Idrorepellente, antimacchia e antimuffa. Questo materiale è anche trattato per conservare il colore originale proteggendolo dall’esposizione a raggi solari e dall’azione dell’acqua.
