PLYLITE

Materiale composito multistrato ad elevata densità con finitura superficiale vinilica poliuretanica, PlyLite garantisce un'elevata resistenza strutturale ed inalterabilità nel tempo, unite ad una grande facilità di pulizia. La texture superficiale rende il piatto antiscivolo ed è disponibile in tre varianti colore.

Being made of high density plywood with polyurethane vinyl finish, PlyLite guarantees high strength and long-lasting good looks while being very easy to clean. The surface texture makes the tray non-slip. Available in three alternative colours.

ECOMALTA

L'EcoMalta è un monocomponente che impiega inerti naturali come sabbia, quarzo e marmo, e che viene abilmente lavorato da mani esperte per ottenere superfici uniche e texture esclusive dall'inconfondibile sapore materico e naturale.

EcoMalta is a single-component mortar containing natural aggregates such as sand, quartz and marble. It is skilfully worked by expert hands to obtain unique, natural looking surfaces with exclusive textures.

Papiro

MINERALITE

effetto ardesia

Materiale composto da minerali e resine, Mineralite unisce elevate prestazioni ad un'estetica estremamente naturale. Versatile nelle colorazioni, Mineralite consente di personalizzare lo spazio doccia con soluzioni materiche e contemporanee.

slate effect

Mineralite is a mineral and resin mix which combines high performance with a very natural appearance. Thanks to the choice of colours, Mineralite offers versatile, stylish solutions for personalising the shower space.

Razor

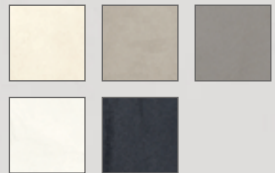

MINERALITE

effetto cemento

Materiale composto da minerali e resine, Mineralite unisce elevate prestazioni ad una finitura superficiale effetto cemento. Versatile nelle colorazioni, Mineralite consente di personalizzare lo spazio doccia con soluzioni materiche e contemporanee.

concrete effect

Mineralite is a mineral and resin mix which combines high performance with a concrete effect surface finish. Thanks to the choice of colours, Mineralite offers versatile, stylish solutions for personalising the shower space.

Calce

Flat

CinqueTerre

HARDLITE

Composto da una miscela di resine acriliche e sostanze minerali, adatto ad un taglio sartoriale su misura, HardLite è una solid-surface che presenta una superficie non porosa ed omogenea, opaca, setosa al tatto, durevole nel tempo, facile da pulire, facile da riparare.

Consisting of a mixture of acrylic resins and mineral substances, the solid surface HardLite is non-porous, seamless, matt, silky to the touch, longlasting, easy to clean and easy to repair: ideal for a bespoke look.

Set_Suite

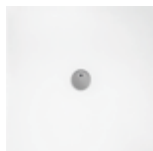

ACRYL

Materiale dalle indubbie qualità, da anni ampiamente diffuso nel settore bagno, Acryl presenta una superficie brillante ed uniforme, inalterabile e di facile pulizia combinata ad una struttura di rinforzo in resina di poliestere e fibre di vetro che conferisce solidità e prestazioni elevate al piatto doccia.

Material of indisputable quality that has been used for years in bathrooms, Acryl with its hardwearing, shiny, seamless, easy-to-clean surface is combined with a fibreglass reinforced polyester structure for greater strength and performance.

Planor

Cinco

Quickr

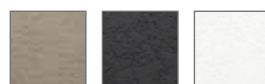

Pareti verticali_Shower walls

I pannelli di rivestimento murale consentono di creare una continuità tra piatto e pareti, risolvendo efficacemente ogni necessità di sostituzione della vasca con un'area doccia.

When replacing a bathtub with a shower area, wall panels ensure there is no gap between tray and walls.
