ETHIMO

The background features a series of overlapping, wavy, horizontal bands of color. From top to bottom, the colors are: a light beige or tan, a dark red, a medium brown, a light pink, a dark green, a teal, and a dark teal. The bands have soft, undulating edges, creating a layered, landscape-like effect.

ETHIMO

Ritrovare il senso
della vita, i colori delle stagioni,
la bellezza di paesaggi
familiari e straordinari.
Coltivare una nuova
e allo stesso tempo antica
armonia con l'ambiente
e con noi stessi, cogliere
l'essenza delle cose
e della vita.

Rediscovering a sense
of life, seasonal colours,
the beauty of familiar
yet extraordinary landscapes.
Cultivating harmony
with the environment
and with ourselves that is
both new and ancient,
embracing the essence
of things and life.

Un nido
accogliente.

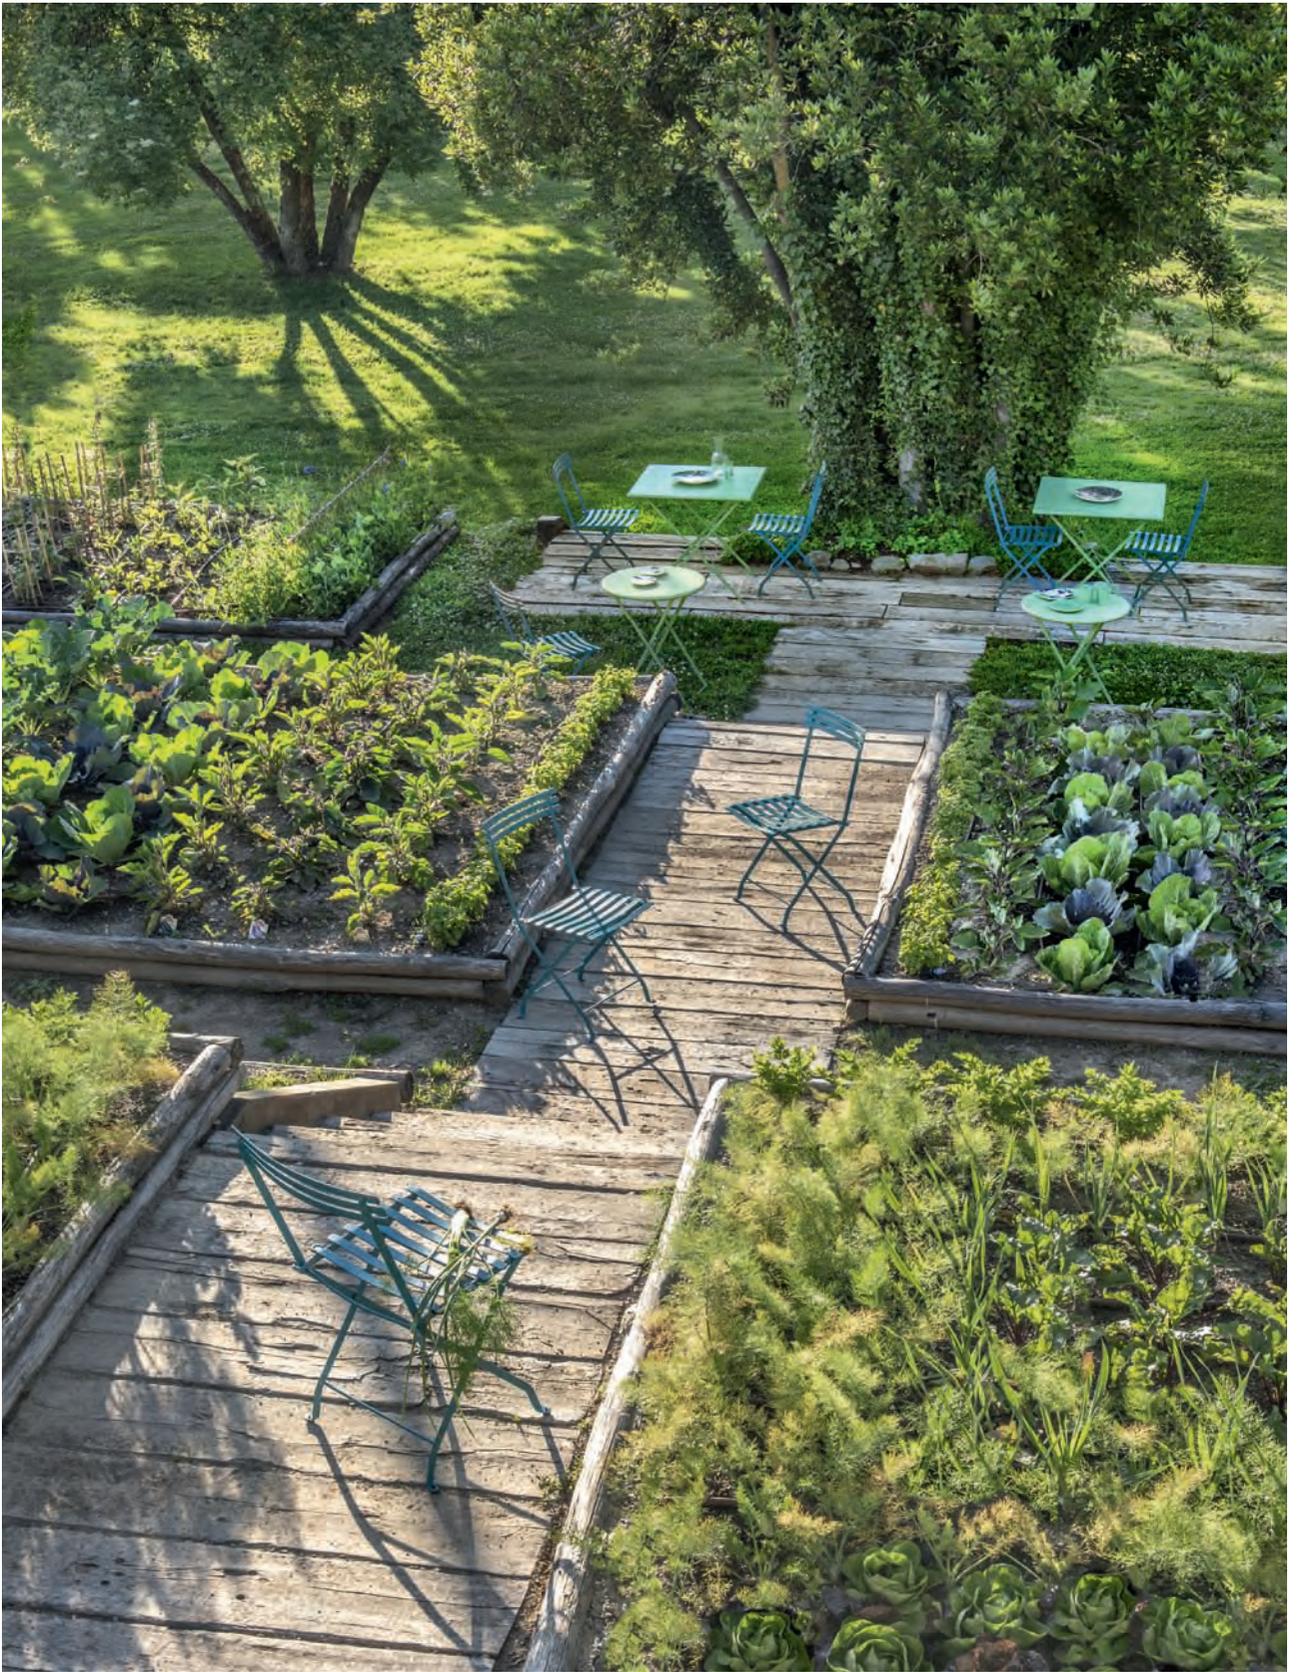

A welcoming
nest.

it / Un rifugio sicuro che accoglie e protegge, uno spazio vivo e ospitale, organizzato secondo regole sagge ed equilibrate. Il giardino dona un senso di serenità, sicurezza e libertà, invita a emozionarsi per un fiore che sboccia o un ramo che proietta trame di luce e ombre sul prato, dona ogni giorno piaceri che credevamo dimenticati, come dondolarsi su un'altalena o accoccolarsi in un nido. Ethimo interpreta il giardino e gli altri spazi dedicati alla vita all'aria aperta, con uno stile fondato sulla semplicità, l'armonia e il benessere. Un linguaggio inconfondibile e universale, con profonde radici nella terra e nel cuore.

en / A safe haven that welcomes and protects, a space that is alive and hospitable, organised according to rules that are wise and balanced. The garden lends a sense of serenity, security and freedom, it arouses our emotions at the sight of a flower in bloom or a branch casting a pattern of light and shadow on a lawn, every day bringing us pleasures we thought forgotten, like swinging on a swing or cuddling up in a nest. Ethimo interprets the garden and other spaces for outdoor living through a style based on simplicity, harmony and wellbeing. An unmistakable, universal language, deeply rooted in the land and the heart.

Un nid
accueillant.

Ein behagliches
Nest.

fr / Un havre de paix qui accueille et protège, un espace vivant et hospitalier, organisé selon des règles savantes et équilibrées. Le jardin donne un sentiment de sérénité, de sécurité et de liberté, il invite à s'émouvoir devant une fleur qui s'épanouit ou une branche qui crée un jeu de lumière et d'ombre sur le gazon, il procure chaque jour des plaisirs que l'on croyait oubliés, comme se balancer sur une balançoire ou se blottir dans un nid. Ethimo interprète le jardin et les autres espaces consacrés à la vie en plein air, dans un style basé sur la simplicité, l'harmonie et le bien-être. Un langage sans équivoque et universel, profondément enraciné dans la terre et dans le cœur.

de / Ein einladender Rückzugort, der ein Gefühl von Sicherheit und Geborgenheit vermittelt. Ein lebendiger und gastfreundlicher Raum, der nach umsichtigen und ausgewogenen Regeln organisiert ist. Der Garten vermittelt ein Gefühl von Gelassenheit, Geborgenheit und Freiheit, er lädt dazu ein, sich von einer blühenden Blume oder einem Zweig, der Licht und Schatten auf den Rasen wirft, bewegen zu lassen, er schenkt uns jeden Tag vergessen geglaubte Freuden, wie das Schwingen auf einer Schaukel oder das sich Hineinkuscheln in ein Nest. Ethimo interpretiert den Garten und andere dem Leben im Freien gewidmete Bereiche mit einem Stil, der auf Einfachheit, Harmonie und Wohlbefinden beruht. Eine unverwechselbare und universelle Ausdrucksweise, die tief in unserer Welt und im Herzen verwurzelt ist.

A photograph of an outdoor terrace. In the foreground, there are three round tables with chairs, each set with a plate of food and two cups. The terrace is paved with gravel and has a low stone wall and metal railing. Large trees with dense green foliage are scattered around the terrace, casting shadows on the ground. In the background, a lush green valley with rolling hills and a line of cypress trees is visible under a clear sky.

Un terrazzo sul verde infinito,
uno scenario che trasmette
serenità e benessere.

A terrace looking out
onto never-ending greenery,
a view that creates feelings
of serenity and wellbeing.

An environment like no other
in the world, ideal accord
between human emotions
and the wonders of nature.

Il mondo
naturale.

The natural
world.

it / L'Orto Botanico di Palermo, definito da Goethe "il luogo più stupendo del mondo", è insieme alla verde Toscana uno degli scenari della collezione Ethimo. Nel cuore del Mediterraneo, altra inesauribile fonte di ispirazione per Ethimo, con le sue memorie avventurose di viaggi e scoperte, la sua architettura in stile neoclassico e il suo tesoro di migliaia e migliaia di specie, è un inno alla biodiversità del pianeta, un museo vivente che spazia dalle emozioni intense e misteriose della giungla, alla spiritualità zen del bambù, ai profumi degli agrumi di Sicilia. Una molteplicità di sensazioni e linguaggi che trovano nella collezione Ethimo una sintesi altrettanto eclettica e in continua evoluzione.

en / Together with green Tuscany, the Botanical Gardens in Palermo, which Goethe called "the most wonderful place in the world", are one of the backdrops chosen for the Ethimo collection. In the heart of the Mediterranean, another unlimited source of inspiration for Ethimo, with its adventurous memories of travel and discovery, neoclassic architecture, this treasure trove with its thousands and thousands of species is an ode to the planet's biodiversity, a living museum that ranges from the intense mysterious emotions of the jungle, to the zen spirituality of bamboo and the citrus scent of Sicily. A plethora of sensations and languages that, in the Ethimo collection, find equally eclectic, continually evolving fusion.

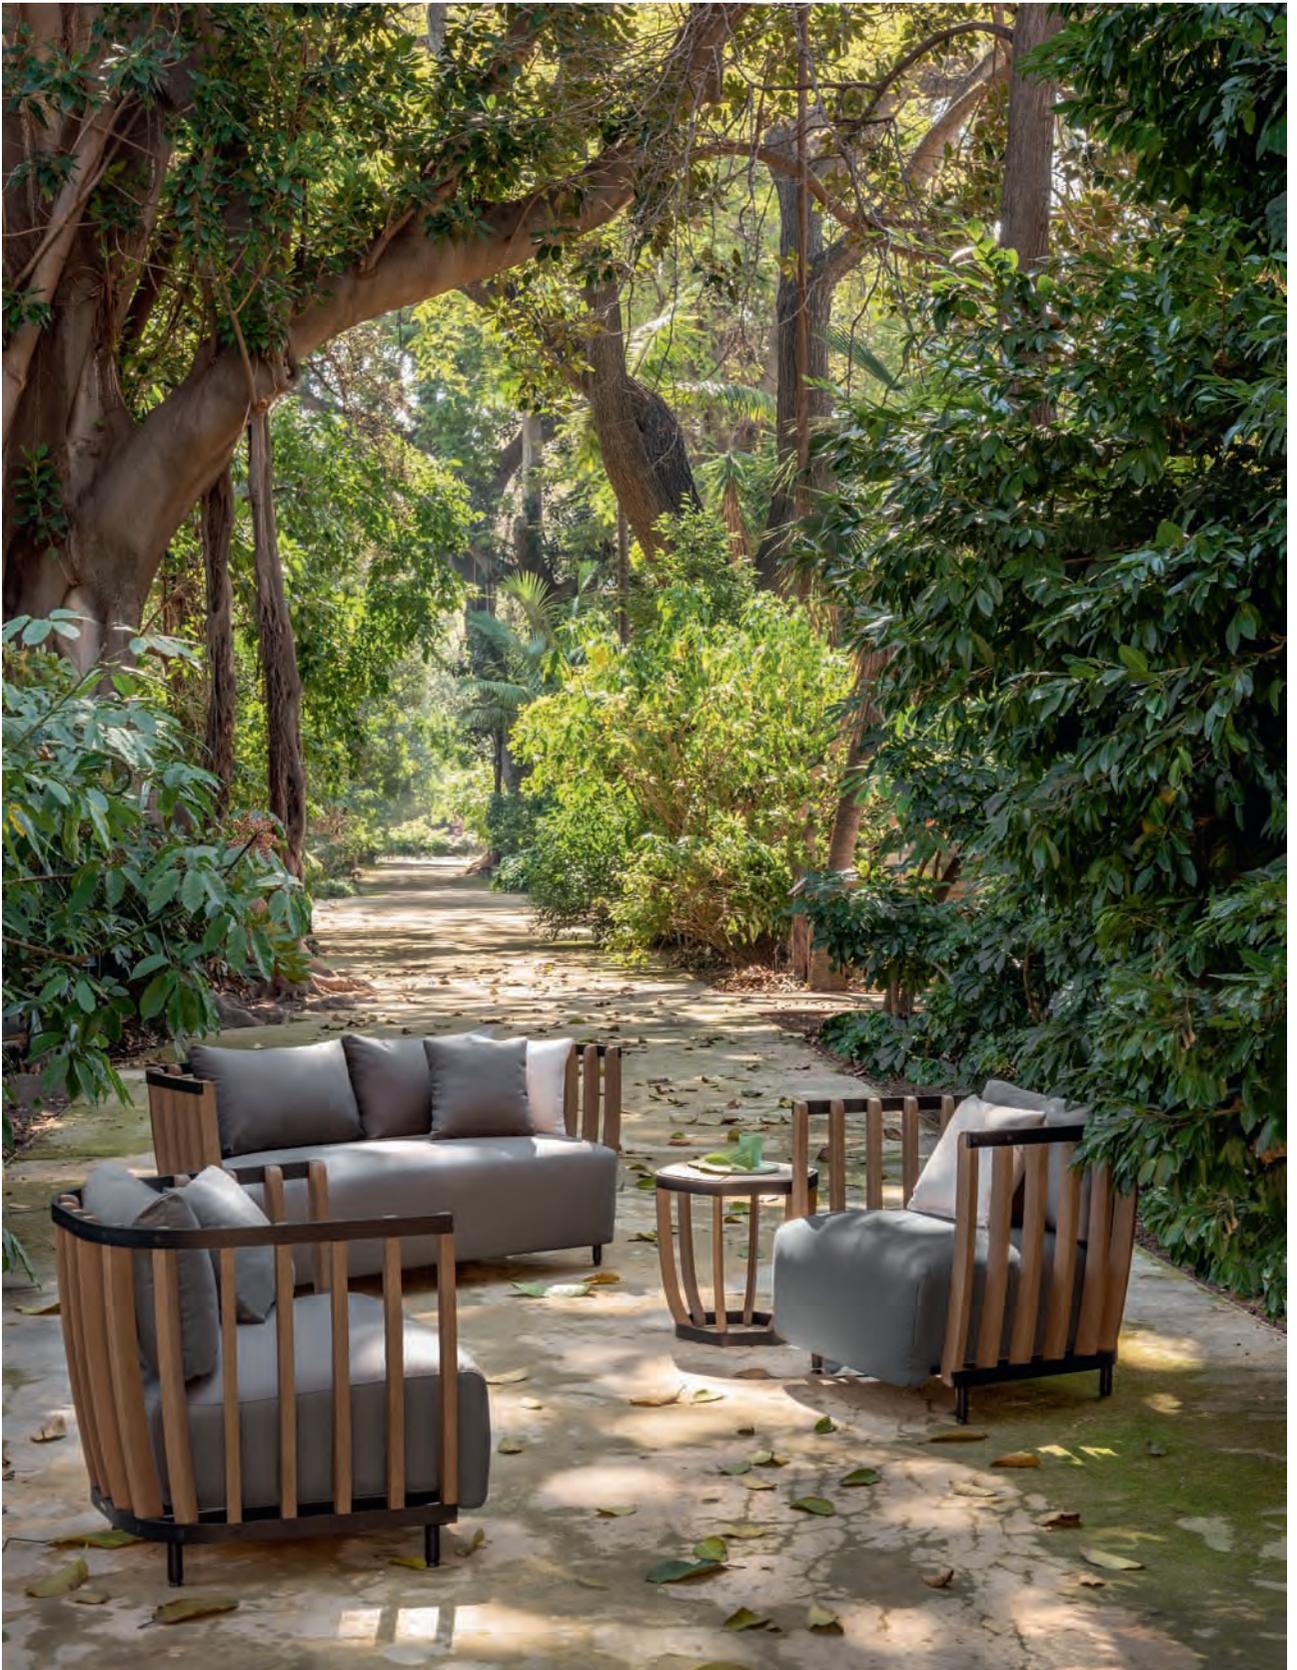

Una bellezza capace di stupire, raffinata nella sua semplicità, in armonia con l'habitat naturale e lo stile di vita contemporaneo.

Beauty that amazes, refined in its simplicity, in harmony with the natural habitat and a contemporary lifestyle.

Le monde
naturel.

Die Welt
der Natur.

fr / Le Jardin botanique de Palerme, défini par Goethe comme « l'endroit le plus merveilleux du monde », est, avec la verte Toscane, un des décors de la collection Ethimo. Situé au cœur de la Méditerranée, autre source d'inspiration inépuisable pour Ethimo, avec ses souvenirs aventureux de voyages et de découvertes, son architecture néoclassique et son trésor composé de milliers d'espèces, le jardin est un hymne à la biodiversité de la planète, un musée vivant où se mêlent les émotions intenses et mystérieuses de la jungle, la spiritualité zen du bambou et les parfums des agrumes de Sicile. Une multiplicité de sensations et de langages qui trouvent dans la collection Ethimo une synthèse tout aussi éclectique et en constante évolution.

de / Der Botanische Garten von Palermo, den Goethe als „den schönsten Ort der Welt“ bezeichnete, bildet zusammen mit dem Landschaftsbild der Toskana eine der Kulissen für die Kollektion von Ethimo. Im Herzen des Mittelmeerraums bietet sich anhand seiner abenteuerlichen Erinnerungen an Reisen und Entdeckungen, seiner neoklassizistischen Architektur und seines Schatzes von Abertausenden von Arten eine weitere unerschöpfliche Inspirationsquelle für Ethimo. Sie ist eine Hymne an die biologische Vielfalt des Planeten, ein lebendiges Museum, das von den intensiven und geheimnisvollen Emotionen des Dschungels über die Zen-Spiritualität des Bambus bis hin zu den Düften sizilianischer Zitrusfrüchte reicht. Eine Vielzahl von Empfindungen und Sprachen, die in der Kollektion von Ethimo eine ebenso eklektische wie sich ständig weiterentwickelnde Synthese finden.

Vivere le
stagioni.

Living seasons
to the full.

it / Ethimo è un concetto di outdoor che attraversa il tempo e lo spazio. D'estate e d'inverno, sul mare azzurro, fra colline verdeggianti o su un terrazzo baciato dal sole, così come nelle città, dove la vita all'aria aperta e il verde rivendicano una nuova centralità. L'arredo Ethimo è pensato per inserirsi armoniosamente in ogni contesto e per durare a lungo, grazie alla qualità del progetto e dei materiali. Anche fra i boschi e cime innevate delle montagne, un altro habitat ideale per le collezioni Ethimo, interpretato con sapiente equilibrio fra tradizione e modernità, calore naturale ed eleganza sofisticata.

en / Ethimo is an outdoor concept that transcends time and space. Summer and winter, on the blue sea, amidst green hills, on a sun-kissed terrace, or even in a city, where life in the open air and vegetation lay claim to a new focus. Ethimo furnishings are designed to fit beautifully into any context and last at length, thanks to the quality of the project and its materials. Up in the mountains, surrounded by woods and snowy peaks; another ideal habitat for Ethimo collections, interpreted with a skilful equilibrium that is all about tradition and modernity, natural warmth and sophisticated elegance.

Vivre les
saisons.

Erleben Sie die
Jahreszeiten.

fr / Ethimo est un concept de plein air qui traverse le temps et l'espace. Que l'on soit en été ou en hiver, au bord de la mer bleue, au milieu des collines verdoyantes ou sur une terrasse ensoleillée, ou même en ville, où la vie en plein air et les espaces verts revendiquent une nouvelle centralité. Le mobilier Ethimo est conçu pour s'intégrer harmonieusement dans n'importe quel contexte et pour durer longtemps, grâce à la qualité de son design et de ses matériaux. Qu'il s'agisse des bois ou des sommets enneigés des montagnes, un autre habitat idéal pour les collections Ethimo, interprété dans un savant équilibre entre tradition et modernité, chaleur naturelle et élégance sophistiquée.

de / Das Outdoor-Konzept von Ethimo durchquert Zeit und Raum. Im Sommer wie im Winter, am blauen Meer, zwischen grünen Hügeln oder auf einer sonnigen Terrasse, aber auch in den Städten, wo das Leben im Freien und die Grünflächen eine neue Bedeutung erlangen. Die Möbel von Ethimo sind so konzipiert, dass sie sich harmonisch in jede Umgebung einfügen und dank der Qualität des Designs und der Materialien eine lange Lebensdauer haben. Auch zwischen den Wäldern und schneebedeckten Berggipfeln finden die Kollektionen von Ethimo einen idealen Standort, indem sie mit einem klugen Gleichgewicht zwischen Tradition und Moderne, natürlicher Wärme und raffinierter Eleganz interpretiert werden.

it / L'eleganza degli arredi urbani del tardo Ottocento rivive in un progetto che unisce fascino intramontabile e moderna funzionalità. La struttura in alluminio, che ricorda visivamente le antiche ringhiere, caratterizza i divani e la poltrona, avvolgendo le forme ampie e arrotondate della seduta con una sensazione di leggerezza e robustezza al tempo stesso. Le generose proporzioni dei cuscini sono amplificate dalle morbide texture dei rivestimenti tenui nelle nuance.

en / The elegance of the urban furniture of the late nineteenth century revives in a project that combines timeless charm and modern functionality. The aluminium structure that visually recalls the ancient railings, characterizes the sofas and the armchair, enveloping the generous and rounded forms of the seat with a feeling of lightness and robustness at the same time. The wide proportions of the cushions are amplified by the soft textures of the pale coverings in the nuances.

it / Rafael è una collezione dall'aspetto insolito e fortemente caratterizzante, suggerita dalla poliedricità e impermanenza della natura. La robusta struttura in teak spazzolato, con graffe in metallo brunito che aggiungono un tocco di artigianalità, incontra le texture e le tonalità dei cuscini, in un dialogo compositivo nel quale si inseriscono i tavoli in candido marmo o pietra smaltata nel colore del mare.

en / Rafael is a collection with an unusual appearance and strong character, influenced by the versatility and transience of nature. The sturdy structure in brushed teak, with metal staples that add a touch of craftsmanship, meets the textures and shades of the cushions, in a compositional dialogue in which the tables in white marble or stone glazed in the color of the sea are inserted.

Materiali

it / Ethimo pone grande attenzione alla scelta dei materiali, al progetto, alle lavorazioni, ai servizi. La certificazione ISO 9001 garantisce la completa efficienza del sistema aziendale.

Teak

Il teak utilizzato per la realizzazione delle collezioni Ethimo è di primissima qualità e certificato FSC (Forest Stewardship Council). Proviene esclusivamente da piantagioni a ricrescita controllata nel rispetto dei rigidi processi di riforestazione e da una filiera di approvvigionamento gestita in modo responsabile, nel rispetto di regole condivise in tutto il mondo. È un materiale eccellente per la realizzazione di mobili per esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità, alla salsedine. Ethimo utilizza teak naturale, teak naturale spazzolato, teak trattato con finitura decapata che apporta al legno una patina grigia, un aspetto vissuto.

Mogano verniciato

Per gli elementi di arredo in legno verniciato, Ethimo ha scelto il mogano proveniente da piantagioni regolamentate. Il mogano è un legno molto resistente e adatto all'uso all'esterno, utilizzato comunemente anche per la costruzione delle imbarcazioni. Dopo l'essiccazione e prima della verniciatura, il legno viene trattato con un prodotto sigillante che chiude i pori rendendolo impermeabile. Le vernici utilizzate sono resistenti agli agenti atmosferici e alle intemperie, garantite da una speciale procedura per il fissaggio del colore.

Accoya®

L'Accoya® è una nuova varietà di legname di eccezionale durabilità, ottenuta mediante un processo atossico di acetilazione, con prestazioni che lo rendono ideale per applicazioni esterne. Viene prodotto con materie prime sostenibili ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Corde

Le corde impiegate nelle collezioni Ethimo sono specifiche per l'utilizzo all'esterno, realizzate in materiale sintetico estremamente resistente ai raggi UV, all'abrasione e agli eventi atmosferici. Differenti per sezione e colore, le corde sono utilizzate per creare sedute e schienali intrecciati, estremamente funzionali e confortevoli.

Fibre

La fibra è un materiale sintetico riciclabile che garantisce estrema resistenza agli agenti atmosferici e all'usura. Le varianti di fibra impiegata per le collezioni Ethimo sono intrecciate a mano ed hanno sezione di diversa misura e finitura. Queste caratteristiche specifiche consentono di ottenere pattern diversi e dinamici, che conferiscono naturalezza e leggerezza all'intreccio.

Rattan naturale

Il rattan è una fibra naturale che proviene dal fusto di una palma. Flessibile e malleabile, può essere lavorato e intrecciato facilmente per dar forma a vari oggetti. Materiale tipico degli arredi outdoor degli anni '50, in realtà è piuttosto delicato e deve essere trattato con accortezza nell'uso all'esterno, protetto dalle intemperie e dall'attacco degli agenti atmosferici. Se ne consiglia l'uso in ambienti coperti.

Pietra ceramica

La ceramica è un materiale ideale per l'utilizzo all'esterno perché estremamente resistente al gelo, all'usura, a graffi e abrasioni. Le sue proprietà antibatteriche la rendono perfettamente compatibile con le sostanze alimentari, rendendola adatta per realizzare top e piani per tavoli.

Pietre

Ethimo utilizza per i propri complementi di arredo alcune pietre naturali come il marmo statuario e la pietra lavica. Il marmo è sottoposto ad un trattamento protettivo che conferisce alla superficie una finitura opaca. La pietra lavica è smaltata a caldo con un procedimento artigianale che rende ogni pezzo unico nelle sue sfumature. In ogni caso, i trattamenti superficiali effettuati rendono tali pietre resistenti agli agenti atmosferici, alle macchie, al graffio e perfettamente adatte all'uso all'esterno.

Metallo

Nella categoria "metallo" rientrano il comune acciaio, l'acciaio inox e l'alluminio utilizzati normalmente nella produzione di arredi outdoor. L'acciaio presenta proprietà che variano in base alla composizione chimica (quantità di carbonio e quantità di altri elementi leganti), ai trattamenti termoidurenti e al processo di produzione. Per garantire la resistenza alla ruggine, l'acciaio Ethimo è sottoposto ad un complesso trattamento di protezione alla corrosione. Per la verniciatura sia dell'acciaio che dell'alluminio vengono utilizzate polveri epossidiche termoidurenti arricchite con materiale antigraffio (Teflon). La resistenza ai raggi UV è garantita 10 anni.

Materials

en / Ethimo is very careful in its choice of materials, design, production processes and services. ISO 9001 certification guarantees the total efficiency of the company's system.

Teak

The teak used to make the Ethimo collections is prime quality and FSC (Forest Stewardship Council) certified. It comes exclusively from plantations with controlled regrowth that respect strict reforestation processes, part of a responsibly managed supply chain that respects regulations shared worldwide. It is an excellent material for the production of outdoor furniture as it is extremely resistant to changes in temperature, water, humidity and salt. Ethimo uses natural teak, brushed natural teak, and teak given a pickling treatment that gives the wood a grey, aged look.

Painted mahogany

For its painted wood furnishings, Ethimo sources mahogany from controlled plantations. Mahogany is a highly resistant wood, suitable for use outdoors and regularly used also in boat building. After drying and before painting, the wood is treated with a sealant that closes its pores to make it waterproof. The paints used are resistant to the atmospheric agents and bad weather, guaranteed by a special procedure that fixes the colour.

Accoya®

Accoya® is a highly durable new timber product obtained thanks to a non-toxic acetylation process, with qualities that make it ideal for outside purposes. It is produced from sustainable raw materials and has greater dimensional stability and durability than the best tropical hardwoods.

Ropes

The ropes used in the Ethimo collections are specific for outdoor use and made from a synthetic material that is highly resistant to UV rays, abrasion and the elements. In different thicknesses and colours, the ropes are woven to make extremely functional and comfortable seats and backs.

Fibres

Fibre is a recyclable synthetic material that guarantees extreme resistance to atmospheric agents and wear and tear. The variants of fibre used in the Ethimo collections are hand woven and have different thicknesses and finishes. These specific characteristics make it possible to create different dynamic patterns, lending naturalness and lightness to the weave.

Natural rattan

Rattan is a natural fibre made from the stem of a certain kind of palm. Flexible and pliant, it is easy to work and weave into various objects. A typical material for outdoor furniture in the fifties, it is actually quite delicate and must be treated carefully when used outside, protected from bad weather and aggression by atmospheric agents. It is recommended for use in covered spaces.

Ceramic stone

Ceramic is an ideal material for outdoor use, as it is extremely resistant to frost, wear, scratches and abrasion. Its anti-bacterial properties make it perfectly compatible with foodstuffs, and therefore ideal for counters and table tops.

Stone

Ethimo uses natural stone, such as statuary marble and lava stone for its furnishing accessories. The marble is given a treatment to protect its surface that leaves it with a matte finish. Lava stone undergoes a vitreous enamel artisan procedure that gives each piece unique nuances. In each case, the surface glaze makes this stone resistant to atmospheric agents, stains and scratching, and therefore perfectly suitable for outdoor use.

Metal

The "metal" category includes the common steel, stainless steel and aluminium normally used in the production of outdoor furnishings. The properties of steel vary according to its chemical composition (quantity of carbon and other alloys), heat hardening treatment and production processes. To guarantee rust resistance, Ethimo steel undergoes complex anti-corrosion treatment. Both steel and aluminium are coated with heat-cured epoxy powders enriched with an anti-scratch material (Teflon). UV-ray resistance is guaranteed for 10 years.

Matériaux

fr / Ethimo accorde une grande attention au choix des matières, au projet, à la transformation, aux services. La certification ISO 9001 garantit l'efficacité totale du système de l'entreprise.

Teck

Le teck utilisé pour réaliser les collections Ethimo est de la plus haute qualité et certifié FSC (Forest Stewardship Council). Il provient exclusivement de plantations à repousse contrôlée dans le respect de processus de reforestation stricts et d'une chaîne d'approvisionnement gérée de manière responsable, selon des règles partagées dans le monde entier. C'est un excellent matériau pour la fabrication de meubles d'extérieur car il est extrêmement résistant aux changements de température, à l'eau, à l'humidité, au sel. Ethimo utilise du teck naturel, du teck naturel brossé, du teck traité avec une finition décapée qui donne au bois une patine grise, un aspect vécu.

Acajou verni

Pour les éléments de mobilier en bois vernis, Ethimo a choisi de l'acajou provenant de plantations réglementées. L'acajou est un bois très résistant et adapté à un usage extérieur, couramment utilisé aussi pour la construction de bateaux. Après le séchage et avant le vernissage, le bois est traité avec un produit d'étanchéité qui referme les pores et qui le rend imperméable. Les peintures utilisées sont résistantes aux agents atmosphériques et aux intempéries, et sont garanties par un procédé spécial de fixation de la couleur.

Accoya®

L'Accoya® est une nouvelle variété de bois d'une durabilité exceptionnelle, qui est obtenue grâce à un procédé d'acétylation non toxique, et qui présente des performances qui la rendent idéale pour les applications extérieures. Il est produit à partir de matières premières durables et présente une stabilité dimensionnelle et une durabilité qui peuvent dépasser celles des meilleurs bois durs tropicaux.

Cordes

Les cordes utilisées dans les collections Ethimo sont spécialement conçues pour l'extérieur, et réalisées dans une matière synthétique extrêmement résistante aux rayons UV, à l'abrasion et aux intempéries. Différentes en section et en couleur, les cordes servent à créer des assises et des dossiers tressés, extrêmement fonctionnels et confortables.

Fibres

La fibre est une matière synthétique recyclable qui garantit une résistance extrême aux agents atmosphériques et à l'usure. Les variantes de fibres utilisées pour les collections Ethimo sont tressées à la main et présentent des sections de différentes tailles et finitions. Ces caractéristiques spécifiques permettent d'obtenir des motifs différents et dynamiques, qui apportent un caractère naturel et une légèreté au tissage.

Rotin naturel

Le rotin est une fibre naturelle qui provient de la tige du palmier. Souple et malléable, il peut être travaillé et tressé facilement pour donner forme à des objets divers. Matériau typique du mobilier d'extérieur des années 50, il est en fait assez délicat et doit être traité avec soin lorsqu'il est utilisé au dehors, mis à l'abri des intempéries et des attaques climatiques. Il est recommandé de l'utiliser à l'intérieur.

Pierre céramique

La céramique est une matière idéale en extérieur, car extrêmement résistante au gel, à l'usure, aux rayures et à l'abrasion. Ses propriétés antibactériennes la rendent parfaitement compatible avec les substances alimentaires, c'est pourquoi elle convient à la fabrication de plateaux et de dessus de table.

Pierres

Ethimo utilise pour ses compléments d'ameublement des pierres naturelles telles que le marbre statuaire et la pierre de lave. Le marbre est soumis à un traitement de protection qui donne à la surface une finition mate. La pierre de lave est émaillée à chaud selon un procédé artisanal qui fait que chaque pièce est unique dans ses nuances. Dans tous les cas, les traitements de surface effectués rendent ces pierres résistantes aux agents atmosphériques, aux taches, aux rayures et parfaitement adaptées à un usage extérieur.

Métal

La catégorie « métal » comprend l'acier ordinaire, l'acier inoxydable et l'aluminium normalement utilisés dans la production de mobilier d'extérieur. L'acier a des propriétés qui varient en fonction de sa composition chimique (quantité de carbone et quantité d'autres éléments d'alliage), des traitements thermodurcissables et du processus de production. Pour garantir la résistance à la rouille, l'acier Ethimo subit un traitement complexe de protection contre la corrosion. Des poudres époxy thermodurcissables enrichies d'un matériau anti-rayures (téflon) sont utilisées pour peindre aussi bien l'acier que l'aluminium. La résistance aux UV est garantie pendant 10 ans.

Materialien

Teakholz

Für die Kollektionen von Ethimo wird ausschließlich Teakholz höchster Qualität verwendet, das FSC (Forest Stewardship Council) zertifiziert ist. Es stammt ausschließlich aus Plantagen mit kontrolliertem Wiederaufbau unter Einhaltung strenger Wiederaufforstungsverfahren und aus einer verantwortungsbewusst geführten Lieferkette nach weltweit anerkannten Regeln. Teakholz eignet sich hervorragend für die Herstellung von Möbeln für den Außenbereich, da es extrem widerstandsfähig gegen Temperaturschwankungen, Wasser, Feuchtigkeit und Salz ist. Ethimo verwendet naturbelassenes und gebürstetes Teakholz sowie Teakholz mit gebeizter Oberfläche, die dem Holz eine graue Patina und damit ein „gelebtes“ Aussehen verleiht.

Lackiertes Mahagoni

Für die lackierten Einrichtungselemente aus Holz verwendet Ethimo Mahagoni aus kontrollierten Plantagen. Mahagoni ist ein sehr widerstandsfähiges und für den Außenbereich geeignetes Holz, das auch häufig im Schiffsbau Verwendung findet. Nach dem Trocknen und vor dem Lackieren wird das Holz mit einem Versiegelungsprodukt behandelt, das die Poren verschließt und das Holz wasserdicht macht. Die verwendeten Lacke sind wetterfest und garantieren durch eine Spezialbehandlung die Beständigkeit der Farbe.

Accoya®

Accoya® ist eine neue Holzsorte mit außergewöhnlicher Strapazierfähigkeit, die durch einen ungiftigen Acetylierungsprozess erzeugt wird. Ihre hervorragenden Eigenschaften machen sie ideal für Anwendungen im Außenbereich. Sie wird aus nachwachsenden Rohstoffen hergestellt und weist eine Formbeständigkeit und Haltbarkeit auf, die die der besten tropischen Harthölzer übertrifft.

Schnüre

Die für die Kollektionen von Ethimo verwendeten Schnüre sind speziell für den Einsatz im Freien bestimmt. Sie bestehen aus synthetischem Material, das extrem widerstandsfähig gegen UV-Strahlen, Abrieb und Witterungseinflüsse ist. Die in Querschnitt und Farbe unterschiedlichen Schnüre werden zur Herstellung von geflochtenen Sitzen und Rückenlehnen verwendet, die äußerst funktionell und komfortabel sind.

Fasergewebe

Das Fasergewebe von Ethimo ist ein recyclebares und gegen Witterungseinflüsse und Abnutzung extrem widerstandsfähiges synthetisches Material. Die für die Kollektionen von Ethimo verwendeten Faservarianten sind handgewebt und haben Querschnitte in verschiedenen Größen und Ausführungen. Dank dieser spezifischen Eigenschaften lassen sich unterschiedliche und dynamische Muster erzielen, die dem Gewebe Natürlichkeit und Leichtigkeit verleihen.

de / Ethimo widmet der Wahl der Materialien, dem Projekt, der Verarbeitung und den Dienstleistungen große Aufmerksamkeit. Die ISO 9001-Zertifizierung garantiert ein uneingeschränkt effizientes Unternehmenssystem.

Natur-Rattan

Rattan ist eine Naturfaser, die aus dem Stamm einer Palme gewonnen wird. Sie ist flexibel und formbar und kann leicht bearbeitet und gewebt werden, um verschiedensten Objekten Form zu geben. Dieses für die Außenmöbel der 50er-Jahre typische Material ist ziemlich empfindlich und muss bei der Verwendung im Freien vorsichtig behandelt und vor Witterung und Witterungseinflüssen geschützt werden. Wir empfehlen eine Verwendung in überdachten Bereichen.

Keramisches Gestein

Aufgrund seiner extremen Frost-, Verschleiß-, Kratz- und Abriebfestigkeit ist die Keramik ein ideales Material für den Außenbereich. Aufgrund seiner antibakteriellen Eigenschaften kann es problemlos mit Lebensmitteln in Berührung kommen, weshalb es sich zur Herstellung von Platten und Tischplatten eignet.

Naturstein

Ethimo verwendet für seine Einrichtungsgegenstände einige Natursteine wie statuarischen Marmor und Lavastein. Der Marmor wird einer Schutzbehandlung unterzogen, wodurch die Oberfläche ein mattes Finish erhält. Der Lavastein wird in einem handwerklichen Verfahren heiß glasiert, wodurch jedes Stück in seinen Nuancen einzigartig wird. Diese Oberflächenbehandlungen machen diese Natursteine in jedem Fall widerstandsfähig gegen Witterungseinflüsse, Flecken und Kratzer. Damit eignen sie sich perfekt für den Einsatz im Freien.

Metall

Zu der Kategorie „Metall“ gehören der gewöhnliche Stahl, rostfreier Stahl und Aluminium, die normalerweise bei der Herstellung von Außenmöbeln verwendet werden. Die Eigenschaften von Stahl hängen von der chemischen Zusammensetzung (Menge an Kohlenstoff und Menge an anderen bindenden Elementen), der Duroplastbehandlung und dem Herstellungsverfahren ab. Um die Rostbeständigkeit zu gewährleisten, wird der von Ethimo verwendete Stahl einer umfassenden Korrosionsschutzbehandlung unterzogen. Für die Lackierung von Stahl und Aluminium werden wärmehärtende Epoxidpulver angereichert mit einem kratzfesten Material (Teflon) verwendet. Die UV-Beständigkeit wird für zehn Jahre garantiert.
