ZIEHER

PROFESSIONAL  
NOVELTIES MARCH 2021

Dear customers, dear friends,

Caused by the Corona pandemic, 2020 has been a very difficult year for all of us.

Thus, for the first time in the Zieher history we have decided not to launch a PROFESSIONAL main catalogue this year.

The more so we are happy to present the ZIEHER NOVELTIES catalogue 2021.

The main catalogue 2020 will remain valid through until February 28th, 2022. Kindly excuse, if every once in a while, an article should no longer be available. In 2022, there will be a new main catalogue – you can already be excited.

We look forward and are convinced that we will be able to overcome the present situation together.

Furthermore, we would like to inform you that our parents and founders of the company, Christa and Manfred Zieher, have retired together beginning of this year.

35 years after founding the company and after the unrelenting strive to build the ZIEHER brand, they well deserve it!

At this occasion we would like to say THANK YOU:  
Thank you for the work done and the necessary stimulus.  
Thank you for the inspirations and visions.  
Thank you for your trust!

Dear customers, we are looking forward to a successful year in partnership - please stay healthy!

Dominik Zieher, Jennifer Hübsch, Oliver Zieher

**"Salar" - nature as a model**

In contrast to the uniform results of industrially mass-produced goods, the imperfection and individuality of hand-made ceramics impress in creating a very charming and natural look. This charm of the imperfect is particularly evident in the organically shaped plates and platters of the 10-part series "Salar".

Softly rounded shapes as well as mysterious surface structures that are reminiscent of archaic salt lakes, create unique items enchanting again and again and form a subtle stage for extraordinary dishes with their ivory-coloured base tone.

The effect glaze used impresses with its matt and glossy, almost mother-of-pearl shimmering areas and its irregular spreading creates individual pieces with a very special appearance. It looks archaic but still elegant and noble.

"Salar" acts humble in an elegant way and places the dishes on display in the centre of attention. The flat plates, various bowls and platters are not only suitable for use by guests but also for staging dishes on the buffet. Nothing hinders a combination with other shapes or materials, "Salar" is predestined for diversity on the set table. Mix & match is the motto.

For drinks with character!

THE BAR COLLECTION

NEW

THE BAR COLLECTION by Zieher enriches the bar scene with new characters which are predestined for independent creations beyond the cocktail mainstream. Each jar playfully picks up on a different theme and thus exudes a good portion of humor in its own way.

Made of particularly break-proof and temperature-resistant borosilicate glass, all glasses not only offer an extravagant outer shell, but with a capacity of up to 500 ml, also provide plenty of space for extraordinary experiments and countless recipes.

Despite their differences, all glasses are easy to combine. Matching accessories, such as trays and straws, made of glass or an unusual skewer made of borosilicate glass create possibilities that go far beyond serving a drink.

Besides the taste, a haptic and visual experience is generated as well, which fulfils the basis of modern cocktail staging.

THE KNOBBED

THE PILL

THE VIKINGS

EDDY - DASH!

"The Knobbed" plays with its content, because the attached knobs imitate the bubbles of carbonic acid in an amusing way. Interesting contradictions to the actual content can be taken to extremes here.

A nice addition to the series is the "Amuse" pourer, which fits in well with the collection. The pourer made of red glass sets a playful coloured accent and is suitable for glass straws with a diameter of up to 8 mm.

"The Pill" allows for many associations: The risks and side effects of the drinks served in these glasses range from the feeling of well-being after consuming various healthy drinks to the intoxicating effects of high-proof cocktail creations.

"The Vikings" are vaguely reminiscent of the headgear of ancient Vikings. They offer a large, clear chalice on satined feet, in which strong cocktails can be staged transparently. The variant with two feet surprises with its tilted position, while the three-foot variant appears stable and yet almost floating.

The dash bottle "Eddy - dash!" for dosing bitter or sour ingredients is, alongside the glasses, an important part of THE BAR COLLECTION. A fitting squirt dispenser comes with every bottle. This vessel is formally based on the well-known "Eddy" wine decanters from Zieher and, in addition to being used as a dash bottle, also enables further uses. Thus, for example, a "cocktail from the bottle" can be served in these vessels, the inwardly directed swirling bodies allow the ingredients to be mixed right before the drink is enjoyed.

The smallest "Eddy" can also be used in the restaurant. For this purpose, Zieher offers suitable cruets as well as matching bottle pourers with hygienic sealing caps, which allow the "Eddy - dash!" to be used as an oil or vinegar bottle.

The black glass tray is available in the main catalogue on page 264, „Ménage-à-trois“ on page 255.

## "Doppio" - how about a little extra?

In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

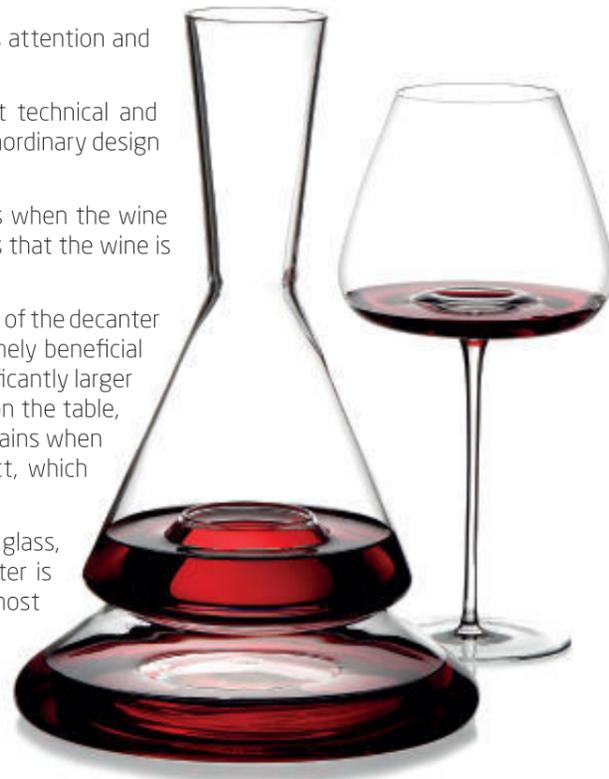

The geometric silhouette and the reduced design appears almost technical and directs the view to the inside, because the whole secret of this extraordinary design only discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine is divided onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has an extremely beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact. The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litres in order to generate maximum oxygen contact and the most beautiful optical effects.

### "Table Trees" - alluring variety on the table

For the presentation of filigree delicacies on a minimum of space, the new "Table Trees" from Zieher offer numerous options for stylish staging.

On the six organically shaped leaves of the "Table-Tree" Flower, dessert variants, an intermediate course or a little amuse-bouche for one or more guests can be presented. Even a selection of fruit, pastry or pralines can be attractively served.

The "Table-Tree" Pin provides surprising moments, offering the opportunity to serve finger food or small snacks on six skewers at different heights. Melon with ham, dates wrapped in bacon or tastefully filled parmesan baskets and edible flowers find an attractive place on the elegant branches. Every delicacy is held securely by an artfully shaped spiral and prevented from slipping.

Using solely stainless steel, the 30 cm high "Table Trees" are completely handcrafted and polished to a high gloss. The solid pedestal forms the basis of these filigree products and ensures a firm stand.
